Forecast for Wednesday 09 Sep 2020

Weather: A rather grey start with rain or drizzle and low cloud obscuring the tops. This lifting and clearing towards midday, with sunny skies developing. A fine day follows, but feeling a little chilly in the breeze.

Chance of cloud free mountain/hill tops above 600m: 20% through the morning, with cloud obscuring summits above 500m, and down to 300m in west. This lifting to near 100% after midday.

Visibility: Very limited at first, with widespread low cloud, but soon improving to give good to excellent views of far distant hills as cloud and rain clears.
